

## Top Ten Baby-Proof Hacks

1. A plastic container can easily house power strips to keep little fingers away.

2. Band-aids, duct tape, painters tape...any of these work to prevent kids playing with electrical outlets.

3. Keep drawers closed with a meter stick.

4. Use hangers to keep closet doors shut!

5. Keep little fingers from getting jammed in doors with this pool noodle hack.

6. Use two 3M hooks and a rubber band to keep toddlers out of the fridge.

7. Use tennis balls on sharp table corners.

8. Use Tupperware containers as doorknob protectors.

9. Use a cheap Ikea fabric and staples to keep babies from pulling out the DVDs.

10. Use pool noodles to soften the edges of your fireplace hearth.
